Jam-packed with hundreds of curriculum-based activities, exercises and games in every subject, Brain Quest Grade 1 Workbook reinforces what kids are learning in the classroom. The workbook's lively layout and easy-to-follow explanations make learning fun, interactive, and concrete. Plus it's written to help parents follow and explain key concepts. Includes phonics, spelling, vocabulary, find the rhyme, addition, subtraction, skip counting, time, money, maps, science, brain boxes, and much, much more. Brain Quest thinks outside the box! Announcing Brain Quest WorkBooks, the smart, sleek, rich, friendly, and altogether fun new series of workbooks from America's #1 educational bestseller with over 28 million copies in print. Echoing Brain Quest's lively design and unique silhouette, each workbook is a bright, kid-friendly invitation to delve into schoolwork with pleasure. The books are jam-packed with hundreds of curriculum-based activities, exercises, games, and challenges in every subject, but with a special emphasis on the core competencies of math and language skills. They're clear, they're interactive, colorful, and varied. Information is layered throughout the text. Kids will write, draw,

solve, connect, add hands to the clocks' faces, and color in the fractional shapes. Six new titles comprise the series, Pre-k through Grade 4; each is a substantial 320-page, full-color book. In addition, each title comes with a pull-out poster, more than 200 stickers, and 100 all-new Brain Quest questions and answers. Even the posters are keyed into the curriculum—in second grade, children study the U.S. states, so the Grade 2 poster will be of the U.S.A., with all capitals, state flags, and state facts. The primary author for each workbook is an education writer with extensive experience in activity-based learning materials. Additionally, each title is written in consultation with an award-winning teacher from the Brain Quest Advisory Panel specializing in that grade level and its core curriculum. It's Fun to Be Smart—and it's even more fun to get smart! Hone your reading skills with a fun story deck and Q&A! Sharpen your skills while you play! Here are 56 accessible, entertaining, illustrated stories designed just for first graders—a poem about mice, an article about rainbows, a story about a funny dream, or a tasty recipe for party popcorn. Following each story card is a reading comprehension card with lively questions about content, character, and more. And then comes a card with questions on grammar, phonics, word

choice, and other ELA topics. Brain Quest Reading Grade 1 is an excellent way for kids to hone their skills and become accomplished, enthusiastic readers - all in the form of a fun game to play with a friend, a parent, or by yourself. Vetted by a panel of America's highest award-winning teachers, and embraced by kids and parents because it flat-out works, Brain Quest opens a world of information and education with its fast-paced question-and-answer format, bright full-color illustrations, and lively attitude. Brain Quest is beloved by kids, trusted by parents, used and recommended by teachers. It's the curriculum-based, fast-paced, question-and-answer game that challenges kids on the stuff they need to know, when they need to know it. It's the brand that says "It's fun to be smart!" And it delivers. For the fourth edition every deck is thoroughly revised and includes 20 percent new material. The content aligns with national and state standards and is overseen by the Brain Quest Advisory Board, a panel of award-winning educators, each a recent state teacher-of-the-year award winner or a recipient of the prestigious Milken Educator Award. The covers and cards have a refreshed design, giving Brain Quest a cooler, updated look. Brain Quest is beloved by kids, trusted by parents, used and recommended by teachers. Burmese pythons are native to Southeast Asia, so when one showed up dead along the side of a Florida highway in 1979, scientists wondered where it came from. No one knew the snakes had launched a full-scale invasion. Pet pythons that escaped or were released by their owners started breeding in the wild, and these enormous predators began eating every animal in their path. Today a group of scientists at the Conservancy of Southwest Florida is tracking Burmese pythons to find ways to stop their spread. Page Plus links lead to video clips and photos of the scientists working in the field. Delve into the science of pythons and their role as invasive predators. Spectrum Test Prep

Ted and Betsy

Lewin arrive in the Okavango Delta of Botswana in February -- the rainy season. Because there is always water in the delta, it is rich in animal life: hippos, Cape buffalo, lions, leopards, wildebeest, lechwe, giraffes, and some seventy thousand elephants! It is the elephants that Ted and Betsy have especially come to see. As they make their way through the flooded grasslands, they encounter impalas, baboons, wild dogs, and a huge crocodile--but where are the elephants hiding? In *Elephant Quest*, Ted's realistic paintings and Betsy's field sketches illuminate the real-life adventure story of this exhilarating and often dangerous trip to the Moremi Reserve.
