With this in mind, Courageous Methods in Cultural Psychology invites students and post-graduate researchers to develop methods that will let them grasp phenomena of interest more fully. Readers will learn how to use established methods, and may be asked to develop them further by combining single steps of extant procedures, or by taking a completely new approach to data collection and analysis. In this book, diverse researchers present projects in which they have tried to do just that. A comprehensive process — from narrowing down research questions to collecting and analyzing data — is given in detail, followed by critical reflections on how well the authors have understood and shared complex realities. Project presentations are framed by theoretical chapters that deal with the challenges and opportunities of cultural psychology and interdisciplinary research. Courageous Methods in Cultural Psychology is sure to inspire and encourage those who wish to venture on new roads “into the wild.” Simple and Very Useful Journal for Writing Your Favourite Songs. A must-read for the corporate controller." —David Taylor, ACMA, MBA, VP Strategy, Trintech Inc. "Fast Close: A Guide to Closing the Books Quickly, Second Edition is a must-read for today's busy controllers. Steven Bragg points out everything that can be done outside the close that you just never realized didn't actually have to be part of the month-end close process! Very commonsensical approach!" —Kathleen Schneibel, mba, cpa, Controller/CFO for Hire, KMAS Consulting LLC "A well-executed 'fast close' can bring many valuable benefits to any company, from improving organizational performance to transforming accounting executives from financial historians to trusted advisors. In Fast Close, Second Edition, Steve systematically breaks down the steps required to achieve a fast close in both public and private companies, providing financial executives with tips, checklists, and a cost-effective road map to implement fast close procedures in virtually any company." —Matthew Posta, Esq., CPA, Vice President of Finance, Key Air, LLC FROM THE FIRST EDITION "This is an outstanding book in which Steve reveals his secrets to a fast close. Having personally experienced his (one-day) fast close for years and enjoyed the beneficial impact on my company, I highly recommend this book for all financial officers who desire to have a large, favorable impact on their company." —Richard V. Stevens offers five key principles that will bolster your knowledge of academic writing, enable you to develop a manageable, sustainable, and even enjoyable writing practice, and, in the process, effectively increase your publication output and promote your academic career. A successful and productive book and journal article author, writing coach, creator of a nationally-recognized, cross-disciplinary faculty writing program, and with a long career as a faculty member and experience as a department chair, Dr. Stevens offers a unique combination of motivation, reflective practices, analytical tools, templates, and advice to set you on the path to being a productive and creative writer. Drawing on her experience as a writer and on her extensive research into the psychology of writing and the craft of scholarly writing, Dr. Stevens starts from the premise that most faculty have never been taught to write and that writers, both experienced and novice, frequently experience anxiety and self-doubt that erode confidence. She begins by guiding readers to understand themselves as writers and discover what has impeded or stimulated them in the past to establish positive new attitudes and sustainable habits. Dr. Stevens provides strategies for setting doable goals, organizing a more productive writing life, and demonstrates the benefits of writing groups, including offering a variety of ways in which you can experiment with collaborative practice. In addition, she offers a series of reflections, exercises, and activities to spark your writing fluency and creativity. Whether developing journal articles, book chapters, book proposals, book reviews, or conference proposals, this book will help you demystify the hidden structures and common patterns in academic writing and help you match your manuscript to the language, structures, and conventions of your discipline--be it in the sciences, social sciences, or humanities. Most importantly, believing that connecting your passions with your work is essential to stimulating your ideas and enthusiasm, this essential guide offers you the knowledge and skills to write more. The old saying goes, "To the man with a hammer, everything looks like a nail." But anyone who has done any kind of project knows a hammer often isn't enough. The more tools you have at your disposal, the more likely you'll use the right tool for the job - and get it done right. The same is true when it comes to your thinking. The quality of your outcomes depends on the mental models in your head. And most people are going through life with little more than a hammer. Until now. The Great Mental Models: General Thinking Concepts is the first book in The Great Mental Models series designed to upgrade your thinking with the best, most useful and powerful tools so you always have the right one on hand. This volume details nine of the most versatile, all-purpose mental models you can use right away to improve your decision making, productivity, and how clearly you see the world. You will discover what forces govern the universe and how to focus your efforts so you can harness them to your advantage, rather than fight with them or worse yet- ignore them. Upgrade your mental toolbox and get the first volume today. AUTHOR BIOGRAPHY Farnam Street (FS) is one of the world's fastest growing websites, dedicated to helping our readers master the best of what other people have already figured out. We curate, examine and explore the timeless ideas and mental models that history's brightest minds have used to live lives of purpose. Our readers include students, teachers, CEOs, coaches, athletes, artists, leaders, followers, politicians and more. They're not defined by gender, age, income, or politics but rather by a shared passion for avoiding problems, making better decisions, and lifelong learning. AUTHOR HOME Ottawa, Ontario, Canada Providing practical guidance based on real-life examples, this book shows researchers different forms and ways of keeping a research journal and how to get the most out of journaling. Appealing to postgraduate students, new and experienced researchers, the book: • provides a theoretical grounding and information about knowledge and sensory systems and reflexivity; • presents a practical exploration of what a journal looks like and when and how to record entries; • includes helpful end-of-chapter exercises and online resources. Providing valuable food for thought and examples to experiment with, the book highlights the different forms of research journals and entries so that readers can find what works for them. Giving researchers licence to do things differently, the book encourages and enables readers to develop their own sense of researcher identity and voice.
