A wild Australian adventure begins with the kidnapping of two boys in the action novel *Will's Way*: On Lake Coothella. Tim and Nick are abducted from their lakeside camp-over on New Year's Eve. The abductors are criminals whose revengeful intent is to make the boys disappear into the criminal underground in payment for an old insult dealt deep in the past. What the criminals don't realise is the resourcefulness and determination, not only of the boys themselves but of their family and friends, who rally their separate rescue expeditions. Will, Tiff, and Matt immediately begin the pursuit in an old inflatable, while Billy and Jamie borrow a boat to help free their friends. Then Spiro and the mysterious Maria join the action. What results is a long and dangerous chase in a variety of boats, at night, over the lake displaying bravery and resourcefulness. This is followed by a determined pursuit through a pine forest, culminating in the final confrontation between the evil mastermind and Will Peters' mother. In this best-selling, award-winning book, now in paperback, Drs. Cloud and Townsend introduce eight persuasive principles that demonstrate how God enters both the heart-breaking situation and the life looking for more. These principles are applied to readers' lives so that their relationships will be better, they'll have more control over their lives, and their spiritual hunger will be satisfied. Application for operation of the Yukon and Saskatchewan sections of the Alcan Pipeline Project. *Follow Your Body's Guidance to Heal Yourself and Your World* In a world rocked by change, how can you work from the inside out to evolve your energies, build resilience, and support personal and planetary well-being? *Your Body Will Show You the Way* provides the inspiring information and practical tools you need to enlist your body's wisdom for healing and optimum wellness. Complete with stories, explorations, and original energy medicine techniques, this astonishing book will deepen your ability to engage in ongoing creative partnership with your body, mind, and spirit. From Coy Bowles, lead guitarist in the GRAMMY-award winning Zac Brown Band, comes a children's story about hard work and self-confidence. *Will Powers: Where There's a Will There's a Way* is a tale about overcoming self-entitlement and achieving your goals

with dedication and a strong work ethic. Will's journey with music teaches him the value of hard work and the power of believing in yourself. It's a classic story with a message that kids, parents, and teachers can relate to and rejoice in. It was worse than winning the lottery—much worse. This bequest might mean more money, but the strings attached had Pandora McVie tied up in knots. Respecting Uncle Jolley's last wishes meant spending time isolated in the Catskills with Michael Donahue, her least favourite—though best looking—distant relative and co-beneficiary. Living with a carrot-topped termagant wasn't Michael's idea of a good time, either, but he realised they were stuck. Jolley was a matchmaker to the end—and apparently for some time beyond. What could happen in six months? Michael answered that one himself: almost anything.

Short Story Press Presents *Will's Way* by Tara Mitchell *Will's Way* tells about a young man growing into his own during his senior year in high school. He was forced to leave his friends and swimming career behind when his father lost his job. They moved as a family to Florida from Iowa. Will felt so far away from everything he knew and he was angry that his parents made him move once again. Will devises a plan to return to Iowa and finish high school where he had started and been so happy. He approaches his parents with his plan and to his surprise finds he has their support. He and his father had always had a somewhat distant if not strained relationship. Will was however very close with his mother and his little brother. He didn't necessarily want to leave his family but he wanted to return to the only place that ever felt like home. He works and saves money for his move and in doing so he grows into responsibilities he had not anticipated. He goes about making that plan work until he finally sees that he is very happy, successful at work and relationships and best off right where he is.

Short Story Press publishes short stories written by everyday writers. Pianists all know the benefits of playing the "Two-Part Inventions" of J. S. Bach. Now, world-respected jazz pianist and composer Bill Cunliffe has written his own "inventions" that will benefit every player's understanding and performance of jazz. These great-sounding etudes explore the specific harmonic, melodic, and technical challenges faced by jazz keyboardists, including the ii-V and ii-V-I progressions, outlining changes, chord-tone ornamentation, playing in octaves, tonic patterns, block chords, polytonality, stride piano, and left-hand walking bass. Pieces feature chord symbols, explanatory notes, and preparatory exercises, and each invention is performed on the CD by Bill Cunliffe. 123 pages. " . . . perfect for daily warm-up, explores the harmonic and melodic intricacies of jazz, each etude targets a specific technical skill and includes performance notes, inventions gradually become more challenging and the harmonic progressions are varied and very musical . . . a musical feast." - International Association for Jazz Education (IAJE)

101 Business Ideas That Will Change The Way You Work takes fascinating findings from world-class business research and shows you how to become canner and more effective at work. Among other vital findings, discover:

- When you should trust your gut instincts
- Why being too agreeable could hold back your career progression
- How to tell when your CEO is lying

This illuminating book not only tells you what you need to know to stay one step ahead, but why you need it and how to do it.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. Life can be difficult. But does God care? Don Moen has learned to lean on God's promises in good times as well as bad and he says, "You can still trust Him." "A person would need to look a long time to find a purer heart and voice than those of Don Moen." —Max Lucado

In his new memoir featuring snapshots from his life and career, Don shares heartfelt stories of gentle comfort for people looking for answers. Don asserts, that God has not forgotten us even when... We face a job loss We go through an unexpected divorce We receive a bad report from the doctor We face the death of a loved one

As a beloved songwriter and worship leader, Don Moen is the author of classic songs like "Thank you, Lord" and "God Will Make a Way"— the inspiration for this book. He knows what it means to feel anxious, worried, and down. And he knows what it means to persevere and see a new day. If you enjoy the encouraging style of Max Lucado, and if you find

comfort in the books of Gary Chapman, then you will love reading *God Will Make a Way*, a new release from Thomas Nelson. Tony's autobiography is a commemoration of the lives and adventures of those bold and enterprising men and women who braved the dangers of the ocean, the hostilities of a new environment and the privations of a residence on a distant coast to procure a better way of life for themselves and their families. In tracing the history of Tony's life, we trace the history of the growth of a community and a people who amidst difficult circumstances were able to achieve a large measure of success and recognition for themselves. In the health documentary *That Sugar Film*, writer and director Damon Gameau enlists the help of Stephen Fry, Hugh Jackman and leading scientists around the world to shine a light on the terrible effects of sugar. In a *Supersize Me*-style experiment, he changes his diet to include 40 teaspoons of sugar a day for 60 days - the average daily sugar intake in Australia - and monitors the effect on his body. But here is the catch - he cannot eat chocolate, sweets, ice cream or cake; the sugar must come from 'healthy' foods. In this illustrated *That Sugar Book*, Damon explains how sugar damages our bodies and our minds, and how easy it is to consume sugar without even knowing it. Revealing the astonishing amounts of sugar hidden in supposedly healthy foods on supermarket shelves - such as low-fat yoghurt, muesli and children's fruit snacks - Damon makes us realise the damage we unknowingly do to ourselves and our families when we make poor food choices, and shows us how to make it right. With an up-close account of Damon's sugar experiment, and sugar-free recipes to help you wean off the white stuff, *That Sugar Book* is a startling wake-up call to those of us who have never questioned what's really in our food. In this revolutionary bestseller, innovation expert Clayton M. Christensen says outstanding companies can do everything right and still lose their market leadership—or worse, disappear altogether. And not only does he prove what he says, but he tells others how to avoid a similar fate. Focusing on “disruptive technology,” Christensen shows why most companies miss out on new waves of innovation. Whether in electronics or retailing, a successful company with established products will get pushed aside unless managers know when to abandon traditional business practices. Using the lessons of successes and failures from leading companies, *The Innovator's Dilemma* presents a set of rules for capitalizing on the phenomenon of disruptive innovation. Find out: When it is right not to listen to customers. When to invest in developing lower-performance products that promise lower margins. When to pursue small markets at the expense of seemingly larger and more lucrative ones. Sharp, cogent, and provocative, *The Innovator's Dilemma* is one of the most talked-about books of our time—and one no savvy manager or entrepreneur should be without. The world is an uncertain place, which is why the future and the unknown absolutely fascinate us. Veteran television journalist Mike Wallace asked the question "What will life be like 50 years from now?" to sixty of the world's greatest minds. Their responses offer a fascinating glimpse into the cultural, scientific, political, and spiritual moods of the times. Edited and with an introduction by Mike Wallace, this book provides an imaginative and thought-provoking look into our collective soul and the critical issues that underlie our hopes, prayers, fears, and dreams for life in the 21st century. Contributors include former presidents, leading scientists, noted writers and artists, respected religious leaders, and current political figures, including: Vint Cerf, Vice President of Google; known as a "Father of the Internet" Francis S. Collins, M.D., Ph.D., a geneticist who led the Human Genome Project Dr. Wanda Jones, Director of the Office on Women's Health at the U.S. Department of Health and Human Services Ray Kurzweil, an inventor whose developments include the first print-to-speech reading machine for the blind and the first text-to-speech synthesizer General James E. Cartwright, Commander of United States Strategic Command Kim Dae-jung, the former President of the Republic of Korea Ronald Noble, Secretary General of Interpol Norman Borlaug, Nobel Peace Prize winner; called "the father of the Green Revolution" Carol Bellamy, former Executive Director UNICEF, first former volunteer to serve as director of Peace Corp, and current president and CEO of World Learning Gerardus 't Hooft, Professor of Theoretical Physics at Utrecht University in the Netherlands; Nobel Prize in Physics Craig Newmark, Internet pioneer and founder of craigslist
