World of Ancient Egypt*

Examines the objects and artifacts, the representations in art, and the examples of documentation that reveal the day-to-day life of ancient Egyptians. This book explores what life was really like for everyday people in Ancient Egypt. Using primary sources and information from archeological discoveries, it uncovers some fascinating insights and explodes some myths. Supported by timelines, maps and references to important events and people, children will really feel they are on a time-travelling journey when reading this book. As the twentieth century roared on, transformative technologies—from trains, trams, and automobiles to radios and loudspeakers—fundamentally changed the sounds of the Egyptian streets. The cacophony of everyday life grew louder, and the Egyptian press featured editorials

calling for the regulation of not only mechanized and amplified sounds, but also the voices of street vendors, the music of wedding processions, and even the traditional funerary wails. Ziad Fahmy offers the first historical examination of the changing soundscapes of urban Egypt, highlighting the mundane sounds of street life, while "listening" to the voices of ordinary people as they struggle with state authorities for ownership of the streets. Interweaving infrastructural, cultural, and social history, Fahmy analyzes the sounds of modernity, using sounded sources as an analytical tool for examining the past. Street Sounds also reveals a political dimension of noise by demonstrating how the growing middle classes used sound to distinguish themselves from the Egyptian masses. This book contextualizes sound, layering historical analysis with a sensory dimension, bringing us closer to the Egyptian streets as lived and embodied by everyday people. 100

biographies reveal the true character and diversity of the ancient world's greatest civilization. The biographies included here give voice not only to ancient Egypt's rulers but also to the people who built the great monuments, staffed government offices, farmed, served in the temples, and fought to defend the country's borders. Spanning thousands of years of ancient Egyptian history, the book offers a fresh perspective on an always fascinating civilization through the lives of: The god-kings, from great rulers like Khufu and Ramesses II to less famous monarchs such as Amenemhat I and Osorkon. Egypt's queens: the powerful Tiye, the beautiful Nefertiti, Tutankhamun's tragic child-bride Ankhesenamun, and the infamous Cleopatra. The officials who served the pharaoh: the architect Imhotep who designed the first pyramid, the court dwarf Perniankhu, and the royal sculptor Bak. Ordinary women who are often overlooked in official accounts: Hemira, a humble priestess from a provincial Delta town,

and Naunakht, whose will reveals the trials and tribulations of family life. Commoners and foreigners such as the irascible farmer Hekanakht, the serial criminal Paneb, and Urhiya, the mercenary who rose to the rank of general in the Egyptian army. Lives of the Ancient Egyptians offers remarkable insights into the history and culture of the Nile Valley and very personal glimpses of a vanished world. Note: The ebook edition includes the complete text of the printed book without illustrations. Deir el-Medina, the village of the workmen who built the royal tombs in the Valley of the Kings, is a uniquely rich source of information about life in Egypt between 1539 and 1075 BC. The abundant archaeological remains are complemented by tens of thousands of texts documenting the thoughts and activities of the villagers. Many of the texts are written on papyrus but most are on flakes of limestone which, being free and readily available, were

used for even the most casual and temporary of records. They include private letters, administrative accounts, magic spells, records of purchases, last wills and testaments, laundry lists, and love songs. The value of these rare glimpses of daily life is greatly enhanced by the concentration of texts in one time and place. This book combines translations of over 200 of these texts spanning the entire range of preserved genres with stunning illustrations. The reader will, therefore, be able to experience the life of the villagers through their own words whilst viewing places known to each individual writer. Each text is introduced by a commentary that provides the context and explains the contribution each text makes to our understanding of Egyptian society at this period. Focusing on the experience of a young girl and her family, this book recreates the daily life of middle-class residents of the ancient town of Lahun during Egypt's Middle Kingdom, or Classical Age. After placing the

town in its accurate historical and geographical context, the author chronicles the everyday life of its inhabitants - from their education, occupations, and food preparation to their religious rituals, healing techniques, marriages, births, and deaths. Throughout the book, authenticity takes center stage. This perfect snapshot in time has been painstakingly recreated using recently published textual data and archaeological findings directly from the settlement of Lahun as well as from other contemporary settlement and mortuary sites. Wherever possible, actual physical artifacts are illustrated with line-drawings or photographs (some published here for the first time), accompanied by descriptions of their production and use. *Daily Life in Ancient Egypt* is a scholarly portrayal of Egypt's Classical Age and a timeless microcosm of daily life in an ancient Egyptian town. Displaying the unparalleled descriptive power, unerring eye for fascinating detail, keen insight, and trenchant wit that have made the novels she writes (as Elizabeth Peters and Barbara Michaels) perennial New York Times bestsellers,

internationally renowned Egyptologist Barbara Mertz brings a long-buried civilization to vivid life. In *Red Land, Black Land*, she transports us back thousands of years and immerses us in the sights, aromas, and sounds of day-to-day living in the legendary desert realm that was ancient Egypt. Who were these people whose civilization has inspired myriad films, books, artwork, myths, and dreams, and who built astonishing monuments that still stagger the imagination five thousand years later? What did average Egyptians eat, drink, wear, gossip about, and aspire to? What were their amusements, their beliefs, their attitudes concerning religion, childrearing, nudity, premarital sex? Mertz ushers us into their homes, workplaces, temples, and palaces to give us an intimate view of the everyday worlds of the royal and commoner alike. We observe priests and painters, scribes and pyramid builders, slaves, housewives, and queens—and receive fascinating tips on how

to perform tasks essential to ancient Egyptian living, from mummification to making papyrus. An eye-opening and endlessly entertaining companion volume to *Temples, Tombs, and Hieroglyphs*, Mertz's extraordinary history of ancient Egypt, Red Land, Black Land offers readers a brilliant display of rich description and fascinating edification. It brings us closer than ever before to the people of a great lost culture that was so different from—yet so surprisingly similar to—our own. Our understanding of the lives of royalty and priests, artisans and professionals, peasants and slaves are all enhanced by Montet's sensitive and insightful appreciation for the ancient Egyptians. This is a story studded with extraordinary achievements and historic moments, from the building of the pyramids and the conquest of Nubia, through Akhenaten's religious revolution, the power and beauty of Nefertiti, the glory of Tutankhamun's burial chamber, and the ruthlessness

of Ramesses, to Alexander the Great's invasion, and Cleopatra's fatal entanglement with Rome. As the world's first nation-state, the history of Ancient Egypt is above all the story of the attempt to unite a disparate realm and defend it against hostile forces from within and without. Combining grand narrative sweep with detailed knowledge of hieroglyphs and the iconography of power, Toby Wilkinson reveals Ancient Egypt in all its complexity. Few studies of ancient Egypt cover so broad a scope as this exceptional insight into everyday life in ancient Egypt. The text is complemented by many illustrations of artefacts, works of art, and scenes of life in ancient Egypt as recorded in tomb reliefs and paintings on papyri. Werner Forman's superb photographs were taken specially for this volume in Egypt and in the great public and private collections.
